Programme on Agriculture Insurance

Program ID: CPG4

20th to 22nd May, 2019

'G' Block, Plot No. C – 46, Bandra Kurla Complex, Bandra (East), Mumbai – 400 051.

INSURANCE INSTITUTE OF INDIA (III) formed in 1955 as a Federation of Insurance Institutes, is recognized by the Indian Insurance Industry, SAARC countries and many other developing insurance markets as a pioneer in insurance education, responding to the academic needs of the industry as well as addressing the causes of building and developing professionalism. Its certifications are internationally recognized.

COLLEGE OF INSURANCE (COI) formed in 1966, the training arm of III, provides training in all technical domains of Insurance, Regulatory Compliances, etc. round the year. A large number of private and public sector insurers, brokers, surveyors and others benefit from its classroom sessions, workshops and seminars. The College of Insurance, which has recently added a Kolkata chapter that is fully functional and is catering to the needs of the Eastern and North Eastern Regions and neighbouring countries as well.

Programme on Agriculture Insurance

Program ID: CPG4

20th to 22nd May, 2019

Relevance of the Program:-

The country's priority of providing Insurance support to the highly vulnerable agriculture sector has been evidenced through the 5- year plans, NITI Aayog and different Governmental initiatives, the latest being the Pradhan Mantri Fasal Bima Yojna (PMFBY). The rural landscape and associated risks are changing fast and the insurance industry has been responding to the need by providing policies based on different approaches like protecting input costs, loss assessment by crop cutting experiments, parametric annual and weather based, etc.

As the country is gearing itself up to protect the risks faced by farmers through various schemes, insurers need to understand the technical merits and demerits of the different approaches and models used.

Program Objective:-

- To understand the behavioural environment in which the Agriculture insurance works.
- Appreciate the merits and demerits of the different approaches towards agriculture insurance.
- To discuss the features of the popular rural policies in the market.
- Underwriting aspects of Agriculture Insurance.
- Evaluate the challenges in assessment/settlement of claims.
- To understand major crops, major cropping seasons and cropping patterns.
- To understand the Micro insurance market.
- Appreciating the rural insurance market-Crops, Horticulture, Cattle, Poultry, Silviculture, Sericulture, Apiculture Fisheries and Livestock. Etc.
- Analyse the regulatory mechanism /Framework for agriculture insurance.
- Comparing the agriculture insurance in India with Global practices.
- Role of Insurtech in agriculture Insurance.
- Agriculture Pricing

Participant Profile:-

Professionals working in the Rural, Micro and Agriculture department of the insurance companies, Brokers, Surveyors and Academicians interested in the area of Agriculture Insurance.
