Program Concept and Objectives:

Insurance regulators of upcoming markets are usually handpicked senior officers with handsome experience in many areas. Often, many of these officers need to fast track the growth of the insurance industry by creating a conducive regulatory environment in quick time. The need for adequate insurance knowledge and the nuances of insurance regulations can be a limiting factor for such officials, which can impair the efficacy of the regulatory system and compromise national interests.

College of Insurance (COI) addresses this need of emerging economies through the 'Insurance Regulatory Drawing Board' (COI-IRDB) Program, which is designed specifically to make senior officers comfortable to their roles in their insurance regulatory roles

Key Takeaways from the program:

COI-IRDB is designed as a **six-day program** with the following takeaways for senior officials.

- Learn the logic behind insurance regulations
- Appreciate the nation building role of the insurance industry and the initiatives of International Association of Insurance Supervisors (IAIS)
- Create regulatory ecosystems for a country
- Understand international regulatory practices and the concerns in corporate governance.
- Appreciate salient features of different lines of insurance, such as Life, Health, Marine, Property, Motor, Rural, Micro, Liability, Pension and Reinsurance.
- Understand the challenges in developing the market, protecting policyholders, regulating multiple entities and their operations
- Identify areas where market failures can happen and formulate preventive/ corrective action
- Evolve a regulatory vision/ implementation plan at a country level

Participant Profile:

This six-day program [covering five days (30 hours) of classroom training and one day for seeing the historic city of Mumbai] is essentially designed for senior/ middle level officials of Insurance Regulators and Insurance Companies involved in regulations, compliance and similar roles. Senior officials exposed to governmental functions of policy-making, nation-building and development as well as Directors/ Senior Managers of insurance companies, teachers of insurance, compliance officials can join. Domain experts will deliberate on the topics in the context of the IAIS Core Principles and on how regulatory theory is actually applied on the field taking examples from the Indian Regulator and other jurisdictions so that participants can understand how the theory is actually applied on the field
