Insurance Institute of India, COI, Mumbai

Classroom Training Session on Comprehensive Health Insurance (CT) 15 to 16 December 2026

Program Concept and Objectives:

The Health insurance landscape has changed significantly, especially after the Covid-19 pandemic. There is a sharp rise in demand for Health insurance due to rising healthcare costs, increased awareness, government initiatives to cover vulnerable sectors and regulatory moves to protect policyholders' interests. Addressing these increased demands of the market along with changing consumer behavior is an opportunity as well as a challenge for Health insurance professionals.

This comprehensive Health insurance training program focuses on the insurance industry's regulatory framework as well as compliances, ethical considerations, emerging trends, innovative products, underwriting concepts, the increased role of professionals protecting policyholder interests, and other topics that will assist participants in successfully navigating the ever-changing health insurance market.

Key Takeaways from the program:

The program of 2 days is designed to give better focus to health insurance professionals in some areas of vital importance. It seeks to provide:

- Comprehensive understanding of the Health insurance ecosystem
- Practical knowledge of recent regulatory frameworks and compliances
- Appreciation of tele-health services, digital wellness tools, data analytics and role of AI in underwriting and claims processing
- Insights into current challenges and future trends
- Understanding the importance of mitigating fraud and abuse in Health Insurance.

Participant Profile: The Program is designed for executives working in health departments of Insurance companies, Brokers, TPAs, Corporate Agents and those who are interested to acquire knowledge related to health insurance.
