Insurance Institute of India, COI, Mumbai

Virtual Training Session on Compliance Governance and Risk Management (IRCC) (CVT) - 16 to 18 December 2026

Program Concept and Objectives: The Financial Sector in India is becoming increasingly active and vibrant in the last few years. Meanwhile, the world is shrinking due to technological advancements, and India is working closer with the global community. The Indian Insurance Market and the Regulators of the Financial Sector are increasingly becoming conscious of the changes happening worldwide and are taking due care so that the Indian industry learns from the best practices around the globe. The regulatory landscape is changing from rule-based to principle-based and insurers need to act with higher degrees of responsibilities. This has made Regulatory Compliances, Risk Management and Governance in the financial sector more challenging.

Insurance professionals, like their counterparts in the financial sector, need to keep abreast of the changing regulatory requirements. Those involved in governance and compliance functions have to be cognizant of this as part of their job. Today's compliance professionals need to appreciate the philosophy behind the regulations, widen their awareness of international trends and develop perspectives so that they can perform more efficiently and preserve the spirit of the regulations by applying their knowledge to local realities.

To address this challenge, Insurance Institute of India (III) has joined hands with the Institute of Company Secretaries of India (ICSI) to create a Certification programme for creating expertise in regulatory compliance in the Insurance industry. The Course is designed to create a cadre of professionals well-versed in risk management, governance and regulatory compliances in the field of Insurance from among the Associates/ Fellows of III and ICSI. The course is in two parts: (a) eLearning, and (b) Classroom interactions for discussing the ever-changing practicalities of Insurance Regulations.

COI has designed this Virtual Classroom Course exclusively for those who have already registered for the *"Compliance Governance and Risk Management in Insurance" [Popularly known as Insurance Regulatory Compliance Course (IRCC)] to enable them to complete the contact classes/ classroom training part of the Course from their respective locations.*

Key Takeaways from the program: The Course covers diverse matters relating to Risk Management, Governance and Compliance in the Insurance industry. This would include:

- Understanding the conceptual framework of insurance regulation
- Becoming aware of the international regulatory scenario
- Knowing statutory provisions contained in various legislations applicable in the country
- Understanding some specific regulations drawn by the Insurance regulator,
- Appreciating the importance of proper market conduct and
- Learning the importance of the compliances required in the insurance sector

Participant Profile: Associate/ Fellow Members of Institute of Company Secretaries of India and Associate/ Fellow Members of Insurance Institute of India

This Virtual Classroom training is open only for those who have already registered for the "Compliance Governance and Risk Management in Insurance" [Popularly known as Insurance Regulatory Compliance Course (IRCC)].
