

Virtual Training Session on Agriculture Insurance for Surveyors (CVT) (Program ID: CPG) 15th December, 2025

Program Concept and Objectives:

Agriculture insurance plays a critical role in safeguarding the livelihoods of farmers and supporting the agricultural economy. Surveyors, as pivotal stakeholders in the claims process, require a deep understanding of the nuances of agriculture insurance, including crop loss assessment, claim procedures, and regulatory expectations.

COI's 'Virtual Training (CVT) Rooms' provide an innovative and cost-effective platform to deliver this one-day program, enabling participants to learn and upskill from their own locations. It is designed to empower participants with the skills and knowledge necessary to effectively handle agriculture insurance claims and insights into best practices, practical approaches for accurate and fair claim settlements, ensuring transparency and efficiency in the process.

Key Takeaways from the Program:

- Understand the concepts and framework of agriculture insurance.
- Develop insights into crop loss assessment methodologies and related tools.
- Learn about best practices in survey and claim settlement for agriculture insurance.
- Enhance skills to ensure accuracy, fairness, and efficiency in claim processing.

Participant Profile:

Professionals working as Agriculture Surveyors and those desirous of joining the profession. Professionals working in Insurance companies, Agriculture departments, Brokers, service providers and Students of Agriculture interested in building expertise in crop loss assessment and agriculture claims handling may join.
