**Crime (CT-LIFCC) - Program ID – CPG50**  
**(From: 18<sup>th</sup> – 19<sup>th</sup> December 2023)**

---

**Relevance of the Program:-**

Today technology is one of the most important aspects of life in every industry. Data breaches are a fact of life, as the saying among data security professionals goes, 'you have either been data breached or you just do not know that you have been data breached.' The challenge for businesses is to manage their risks better so that their data is not breached, thereby reducing the significant costs that can result from such breaches. Purchasing insurance is regarded by many as one of the smartest options in managing technology related risks.

Through this program, College of Insurance aims to provide a stronger theoretical framework for Cyber Crime & Liability Insurers and bring in a higher degree of professionalism in their work. The program seeks to broaden their vision, reconnect them to the often forgotten fundamentals, acquaint them to the changing market practices and in the process broaden their professional and academic horizon by exposing them to other professionals in the industry.

**Program Objectives:-**

The program is design to empower the participants in the following areas:

- Revise the theoretical framework of Liability insurance
- Understand the extent of Cyber risk and the related Legal aspects.
- Appreciate the increasing relevance of knowledge and technology
- Understand the technical and risk management aspects of Cyber Liability risk
- Learn to assess risk exposures and price the same.
- Understand the challenges in claims servicing

**Participant's Profile:-**

The Program is designed for serious minded practitioners who have interest in Liability Insurance. Professionals working in junior/ middle management levels in marketing, underwriting and claims departments of insurance companies, brokers, and insurance buyers can benefit from this program.
