

As the world is becoming smaller with technological advancements and the country working closer with the global community, Regulatory Compliances, Risk Management and Governance in the financial sector have become more challenging. The Indian Insurance Market and the Regulators of the Financial Sector are increasingly becoming conscious of the changes happening worldwide and taking due care so that the Indian industry learns from the best practices around the globe.

Insurance professionals, like their counterparts in the financial sector, have to keep abreast of the changing regulatory requirements. Those involved in governance and compliance functions have to be cognizant of this as part of their job. However, professionals dealing with compliance need to appreciate the philosophy behind the regulations, widen their awareness of international trends and develop perspectives to ensure proper application of their knowledge to local realities so that they can perform efficiently and ensure that the spirit of the regulations is not lost under the monotonous and routine nature of mandatory compliances.

To address this challenge, Insurance Institute of India (III) has joined hands with the Institute of Company Secretaries of India (ICSI) to create a Certification programme for creating expertise in regulatory compliance in the Insurance industry. The course is in two parts: (a) eLearning, and (b) Classroom interactions for discussing the ever-changing practicalities of Insurance Regulations.

COI has created '**Virtual Training (CVT) Rooms**' for participants to complete the classroom training part from their respective locations.

Program Objectives:

❖ The Course is designed to create a cadre of professionals well-versed in risk management, governance and regulatory compliances in the field of Insurance regulation from among the Associates/ Fellows of III and ICSI.

Program Deliverables: The Course covers diverse matters relating to Risk Management, Governance and Compliance in the Insurance industry. This would include:

- ◆ Understanding the conceptual framework of insurance regulation
- ◆ Awareness of the international regulatory scenario
- ◆ Statutory provisions contained in various legislations applicable in the country
- ◆ Specific regulations drawn by the Insurance regulator,
- ◆ Market conduct and
- ◆ In-depth learning of the various compliances required in the sector

Participant's Profile:

- Associate/ Fellow Members of Institute of Company Secretaries of India and
- Associate/ Fellow Members of Insurance Institute of India

This classroom training is open only for those who have already registered for the "Compliance Governance and Risk Management in Insurance" [Popularly known as Insurance Regulatory Compliance Course (IRCC)].
