

Insurance Institute of India, COI, Mumbai

Classroom Training Session on Engineering Insurance - Operational Policies Underwriting and Claims (CT), (Program ID: CPG) 5th to 6th January, 2026

Program Concept and Objectives: The Engineering line of insurance covers some of the most complicated products in terms of coverage, conditions and exceptions. If not carefully understood and prudently underwritten by the insurer, these lines of business have the potential for causing large claims to the company. Insurers need to understand the risk properly, the intricacies of the policy wordings, the subtleties involved in claims processing as well as use their imagination to visualize the situations that can create such claims. As a result of technological developments, the machinery and operations of many industries have become increasingly complicated, posing new challenges for insurers.

College of Insurance has developed this course to suit the specific needs of insurance professionals dealing with various Operational risks like Machinery Breakdown (MB) Insurance, Boilers and Pressure Vessels (BPV) Insurance, Electronic Equipment Insurance (EEI) under the Engineering line of business.

Key Takeaways from the program: The program is designed to empower the participants in the following areas:

- Understanding various types of Operational Policies like MB, BPV & EEI
- Understanding the Coverages, Exclusions and Clauses of Operational Policies
- Appreciating the challenges in handling MB, BPV & EEI Claims

Participant's Profile: The Program is designed for Officers in Insurance companies in the Junior/ Middle management level from underwriting and claims departments. Engineers, Brokers, and Loss Adjustors who are working or wish to work in Property and Engineering lines of business may also attend.
