

Insurance Institute of India, College of Insurance, Mumbai  
Virtual Training Session on  
**Compliance Management for Principal Officers of Corporate  
Agents (Including Banks) (CVT)**  
9 February, 2026

**Program Concept and Objectives:**

The position of a Principal Officer is a critical responsibility to discharge as he/she is exclusively appointed to supervise all the activities of the Corporate Agent. The scope of the activities is large and varied, starting from Implementation of board approved policy, procuring insurance business while ensuring strict adherence to the code of conduct, managing conflicts of interest, regulatory disclosures and compliance, working out arrangements with Insurers for distribution of products, maintaining records, providing services to policyholders, attending to regulatory Inspections and overall supervision and guidance. One essential thread which runs through all these activities is Regulatory Compliance, which requires thorough knowledge of meaning and rationale of the regulatory provisions covering all the activities. This has now become all the more challenging due to complete revamp of regulatory framework in 2024, except those regulations that deal specifically with Intermediaries. Good Regulatory Compliance Management may actually help facilitate smooth business performance by avoiding penalties, time and reputational loss which can happen as a result of regulatory violations.

Keeping the above in view the '**3 hour Virtual Training**' is designed to equip the aspiring and existing Principle Officers with an overview and knowledge of the regulatory requirements governing all the activities of the Corporate Agents including Banks at a very affordable cost.
