

Post pandemic, cyber security has turned out to be one of the biggest causes of concern for individuals and businesses alike. Some of the elements of a cyber security, resilience and cyber liability cover may be interconnected or overlap with. Even if this overlap does exist, a decent cyber liability policy will ensure cyber risks are fully catered for, which is possible only if all the people in the value chain are aware of the importance of having the same.

In this context, the College of Insurance aims to provide a stronger theoretical framework for Cyber Security and challenges in making the organization cyber resilient. It will also focus on various cyber claims which an organization can face on virtual platform.

COI has created '**Virtual Training (CVT) Rooms**' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

**Program Objectives:** The program is design to empower the participants in the following areas:

- Understanding the extent of cyber risk
- Awareness of various kinds of cyber attacks
- Appreciate the roles of the various actors in cyber Resilience
- Understanding the basics of cyber security framework
- Understanding basics of cyber insurance policy

**Participant Profile:** The Program is designed for executives of life Insurance companies/ Intermediaries who have exposure to insurance sector, technology and have an interest in cyber security.
