PROGRAM CONCEPT AND OBJECTIVES:

The Indian insurance industry is fast evolving and has come a long way over the past two and a half decades since liberalization of the industry and the formation of IRDAI. Many regulatory changes have been announced by IRDAI over the years towards reforms and expansion of the insurance industry. Many of them are in the customers' interests. This helps gaining people's trust in the insurance mechanism so that they can buy insurance protection with confidence.

However, it is required to appreciate the purposes and the right spirit of the regulations to understand why compliance to them is essential for insurance companies, intermediaries, and even the customers of the insurance industry.

This one day training will give proper insights to insurance practitioners and compliance professionals.

KEY TAKEAWAYS FROM THE PROGRAM:

The Program aims at making the participants aware of –

- The recent regulatory changes
- The regulatory situation prior to the changes and the position after the changes
