

**College of Insurance**  
**Insurance Institute of India, Mumbai**  
**Classroom Training Session on Basics of Aviation Insurance**  
**Program ID – CPG15 (From: 1<sup>st</sup> to 2<sup>nd</sup> December 2023)**

**Relevance of the Program:-**

After being severely affected by the pandemic situation, the Aviation Industry has bounced back to normal operations from the beginning of 2022, and shown positive signs of growth worldwide. India is the 7th largest Aviation market in the world; expected to be 3rd largest in next 2 years in terms of the number of passengers. Growing at the rate of 6.9% and supporting more than 56.6 million jobs, the Indian Aviation and Air Transport market is one of the fast growing markets in the world.

With the induction of new airlines and the expansion of existing airlines, more advanced aircrafts are being acquired. The Indian Aviation industry is estimated to grow from its existing strength of 716 aircrafts in 2022 to more than 1100 aircrafts in the next 3 years. The number of operational airports in India has increased from 74 in 2014 to 140 in 2022 and expected to grow to 220 in the next 5 years. As per reports, water aerodromes are also in the making. These developments are sure to increase the growth of the Aviation insurance market as well. Aviation Insurance being regarded as high risk, capital intensive and reinsurance driven, only a few insurance players are active in this market.

College of Insurance has designed this training program to help those who intend to be part of the growth story of the Indian Aviation insurance industry as part of their business plans. The course contents include the anatomy of Aviation Hulls, common Hull Covers, liabilities of the airlines and aircraft owners to passengers, crew, third parties, etc. The course would also touch upon the liabilities of hangar keepers, airport owners, and oil companies against fuel liabilities. Concerns of underwriters, claims professionals as well as re-insurance angles would be also discussed. The program shall be of one day's duration, with domain experts as faculty.

**Program Objectives:-**

It aims at making the participants aware of:

- Broad awareness about the Aviation industry and the insurance market
- Basic knowledge about the modern aircrafts and the airports
- Risk associated with Aviation operations
- Various types of Insurance covers for Aircrafts including liabilities
- Underwriting and rating considerations
