

Classroom Training Session on Liability Insurance: Focus Casualty Lines (CT) 11th - 12th June, 2025

Program Concept and Objectives:

Over the last few years owing to the rapid technological, social and regulatory changes, the customers are now exposed to various liability claims leading to demand for newer products in the Liability Insurance Market. The complexities are increasing for the decisions makers at the management level in the industry and the challenge is how to protect oneself from such exposures. With the scope of activities of many organisations becoming wider, and with those business activities more open to interpretation, it's an area that can raise the level of concern for underwriters as well.

Liability Insurance deals with many unforeseen liability situations. The line of business is deeply connected to techno-legal knowledge and one needs to understand the kind of claims that can arise from emerging and current businesses. Persons dealing with marketing, underwriting or claims in Liability Insurance need to understand multiple concepts and apply them to real and dynamic situations. As claims can come from diverse scenarios, understanding the exact terms that are offered under this line of business is important.

College of Insurance has designed this program to improve the capability of the industry by providing a strong theoretical framework on Liability Insurance, focusing on Casualty and related Non-Financial lines of Liability insurance

Key Takeaways from the program: This program is designed keeping in mind the trends of times and is designed to empower the participants in following areas:

- Understanding the theoretical framework of Liability insurance
- Develop critical appreciation of concepts related to Public Liability, Product Liability and Commercial General Liability (CGL) etc.
- Comprehend factors critical to making underwriting decisions
- Understanding policy wordings, clauses and other nuances in Liability insurance policies
- Develop better insights into handling Liability claims

Participant Profile: The Program is designed for serious minded practitioners who have interest in Liability Insurance. People working in Junior/ Middle management level from marketing, underwriting and claims departments in Insurance companies, Brokers, and buyers of insurance may attend.
