

Virtual Training Session on Cyber Security and Cyber Hygiene for Insurance Industry (CVT) - 5th August, 2025

Program Concept and Objectives: With the advancement of technology in the business world, corporates have increased their speed of response. Simultaneously, the increased dependency and exposure to technology has brought in many new challenges for them and their customers. If data gets compromised, the entire organization can come to a stand-still position. Security of information/ data has become one of the most important components of the Enterprise Risk Management wheel.

Many of the elements of Cyber Security, Cyber Hygiene are interconnected or overlapping and more so, with the introduction of DPDP Act. Hence understanding Cyber risk exposures becomes important for risk managers, providers of risk management solutions and practically everyone in the ecosystem. Though Cyber Liability insurances can cover many of the risks, to ensure that Cyber risks are efficiently and optimally covered, many of the stakeholders in the value chain need to be aware of Cyber Security and Cyber Hygiene.

In this context, College of Insurance has designed this program to provide academic and practical knowledge for professionals dealing with Cyber Security, Cyber Hygiene and Cyber Insurance. The program will also deal with Cyber claims that an organization can face.

COI has created '**Virtual Training (CVT) Rooms**' as a cost-effective mechanism for participants to equip themselves academically at their respective locations.

Key Takeaways from the program: The program is designed to empower participants in the following areas:

- Understanding the significance of Cyber threats and related challenges
- Awareness of various kinds of Cyber attacks
- Appreciating the roles of various parties in Cyber Hygiene
- Understanding the basics of Cyber security framework
- Understanding the basics of Cyber insurance policy

Participant Profile: The Program is designed for executives of Life & General Insurance companies/ Intermediaries who are exposure to data, technology and/ or have an interest in Cyber Security.
