

Insurance Institute of India, COI, Mumbai

Classroom Training Session on Health Insurance: Underwriting (CT)

2 to 3 September, 2026

Program Concept and Objectives:

Health insurance is a critical segment of the insurance industry, offering financial protection against medical expenses and promoting access to quality healthcare. However, with the evolving healthcare needs, rising medical costs, and increasing regulatory oversight, underwriting health insurance has become a complex and dynamic process.

This program is designed to equip participants with the knowledge and skills necessary to navigate the nuances of health insurance underwriting. It focuses on understanding health insurance products, the regulatory environment, human physiology's impact on underwriting, and effective risk management practices. The program's goal is to assist insurers in developing a healthy and sustainable portfolio by encouraging prudent underwriting practices.

College of Insurance has designed this program for serious minded insurance professionals who wish to have deeper insights into underwriting Health Insurance business.

Key Takeaways from the program:

- Appreciate Health Insurance products and recent trends
- An overview of regulatory environment in which health insurers are operating today
- Understand human physiology and its impact on underwriting
- Understand Risk Management methods at proposal stage
- Appreciate the importance of effective and judicious Underwriting for a healthy portfolio

Participant Profile:

The Program is designed for executives working in health departments of Insurance Companies, Brokers, TPAs and those who are interested to work in areas related to Health Insurance.
