Insurance Institute of India, COI, Mumbai

Classroom Training Session on Property Insurance - Management of Mega Risks (CT)

7 to 8 September, 2026

Program Concept and Objectives:

India is witnessing rapid industrialization with the Government of India's focus on infrastructure development and the initiatives like ' Make in India' and 'Atma Nirbhar Bharat'. The Government is incentivising industries that meet certain prescribed norms to develop further and promoting investment in various sectors. This has increased the demand for more IAR and Mega Policies.

The Indian insurance industry is expanding rapidly and both PSUs and Private Sector insurers are augmenting their capacities to provide the requisite coverages that the development in the country has ushered in. Hence, there is a critical need for the insurance professionals to understand All Risk Packages like the Industrial All Risk Policy (IAR) and Mega Policies in detail, including the coverages, terms and conditions and warranties applicable as well as the Add-on covers available. A better equipped insurance professional would be able to ensure proper and informed sales leading to better customer experience.

College of Insurance has devised a two-day training programme which aims to delve into the intricacies of underwriting, managing and mitigating risks associated with such large-scale industrial operations and mega projects.

Key Takeaways from the program:

The program is designed to empower the participants in the following areas:

- Building conceptual clarity on insuring Mega Risks and large industries.
- Helping participants to understand risk exposures of different industries.
- Discussing underwriting concerns for Mega Risk Policies and IAR Policies.
- Learning rating procedures and Reinsurance aspects of Mega and IAR.
- Appreciating new approaches in claims management and claims procedures.

Participant Profile:

The Program is designed for insurance company officers in the junior and middle management level from marketing, underwriting and claims departments, inspecting engineers, brokers, and loss adjustors who have exposure to Property & Engineering insurances.
