

## Virtual Training Session on PPHI Regulations, 2024 and Grievance Resolution (CVT) - 8 September, 2026

### Program Concept and Objectives:

Consumer grievances and satisfactory resolution are a critical part of any business, more so in case of service industry like that of Insurance which is highly intangible. Grievances, in fact, are the critical Moments of Truth, and they serve as important pointers and feedback on the quality of our products and services and what Consumers are thinking of them. The real issue however is whether our approach towards them is serious, sensitive and courteous and that effective processes are in place for their resolution including Root Cause Analysis and remedial actions. These will enable Insurers to attempt Service Recovery and regain the trust and confidence of the Insurance Consumers and also contribute to the Shining Brand Equity for the Insurance Company.

Insurance Regulatory Framework has made significant strides towards Principle based system and The Protection of Policyholders' Interests Regulations, 2024 and the connected Master Circulars have laid out the Principle of Treating Customer Fairly (TCF) in all the dealings and more so in grievance redressal. It has also brought in specific requirements in Grievance Redressal including tech based platform and integration with IRDAI Portal-Bima Bharosa, apart from timelines for various services including grievance resolution. Despite all the above, Insurance policyholder grievances continue to attract adverse attention from Government, Regulatory Authorities both for incidences of mis-sale and claim denial and delays.

With the above background in view and to equip the Customer facing, frontline officials of Insurance Companies with the holistic knowledge in a capsule program on the subject right at their work locations, the College of Insurance has created '**Virtual Training (CVT) session**' as a cost-effective mechanism.
