# Classroom Training Session on Liability Insurance : Focus Financial Lines (CT) 28 to 29 September, 2026

### Program Concept and Objectives:

In the recent past, new risks have been emerging in the local and global financial markets at a fast pace. Many of them emanate from new legal challenges, new ways of looking at existing laws, and consequent legal developments. Due to the high stakes involved, corporates are increasingly concerned about financial risks and seriously considering transferring their risks to insurance companies. Indian corporates also are increasingly finding the need to safeguard the reputation of their businesses and their employees against claims situations, and potential exposure to costly litigation. In this context, they are increasingly understanding the importance of insurance as an effective risk-management mechanism. This situation has directly contributed to the popularity of Financial Liability Insurances.
