

Virtual Training Session on Basics of Reinsurance (CVT)

Program ID – CPG31 - (From 7th to 8th August 2023)

Reinsurance is an industry that is truly global in nature. Reinsurers are able to assume some of the world's largest and most complex risks because they can spread risk on a global basis. There are various concerns that insurers face in developing their reinsurance strategies and implementing them – improving capital-efficiency, enhancing their capacity to accept more than what their financial resources would ordinarily allow, protecting their account from catastrophic events or abnormally large losses etc. Many catastrophic risks are insurable just because reinsurance is available of for them.

College of Insurance designed this program for developing a basic understanding of Reinsurance for the people working in Insurance and allied sectors.

COI has created '**Virtual Training (CVT) Rooms**' to conduct training program in a cost-effective manner for participants to equip themselves academically at their respective locations.

Program Objectives:

The program is design to empower the participants in the following areas:

- Understanding the concept of reinsurance and how it is used as a risk management tool
- Understanding different kinds of reinsurance arrangements
- Understanding important aspects/ clauses of Reinsurance
- Appreciate the global practices in the Reinsurance space

Participant's Profile:

The Program is designed for Insurance executives in Insurance, Reinsurance and Broking companies, whose roles require knowledge and skills relating to reinsurance, including understanding the processes involved and other critical issues related to Reinsurance.
