

College of Insurance

Insurance Institute of India, Mumbai

Classroom Training Session on Comprehensive Health Insurance (CT-CHI) (From: 7th to 9th October, 2024)

Program Concept and Objectives:

Rising healthcare costs, growing awareness of the value of health coverage, and government initiatives like the Pradhan Mantri Jana Arogya Yojna (PMJAY), which protects poor families from excessive medical expenses, have all contributed to the growth of the health insurance market in India. Today's healthcare industry has become quite challenging with the growth of private health insurance firms providing an extensive range of health insurance products, the digital revolution, increased awareness and demand, product innovation, the incorporation of telehealth services into healthcare, and the ongoing enhancement of regulatory frameworks to protect the interests of policyholders.

This comprehensive health insurance training program focuses on regulatory compliance, ethical issues, and new developments in the healthcare sector, to provide learners with the information and abilities needed to successfully navigate the ever-changing health insurance market. It is intended to support a comprehensive understanding of the health insurance industry by appealing to a wide range of individuals involved in different facets of the industry.

Key Takeaways from the Program:

The program of 3 days is designed to give better focus to the health insurance professionals on some areas of vital importance. It aims to make the participants:

- Appreciate the environment in which health insurers are operating today
- Understand some major diseases and treatment procedures
- Comprehend the working of health service providers and related sub-systems
- Understand the challenges in product development and distributions
- Understand Pradhan Mantri Jan Arogya Yojna
- Understand the importance of mitigating fraud and abuse in Health Insurance.

Participant Profile:

The Program is designed for executives working in health departments of insurance companies, brokers, TPAs and those who are interested to work in areas related to health insurance.
