**Classroom Training Session on Industrial Risk Inspection-Method &**  
**Reporting - Program ID – CPG40**  
**(From: 25<sup>th</sup> to 26<sup>th</sup> September 2023)**

---

**Relevance of the Program:-**

The importance of Risk Management is increasingly appreciated in the insurance industry in practically all the sectors. This includes both physical risk management and financial risk management of the organization. Beyond their role of accepting risk as part of the risk transfer mechanism, insurers wish to contribute to Risk Management as well. Risk Inspection professionals are expected to understand the risk thoroughly and provide the management with greater insights, as also handhold them through the risk management process. For this, Insurers need to improve the skills of Risk Inspection professionals.

In this context, the College of Insurance has designed this program to enhance the capabilities of Risk Engineers, by making them aware of the techniques used for risk inspections, so that they can use the same to add value to their companies and the insured.

**Program Objectives:-**

The program is designed to empower the participants in the following areas:

- Understanding different industries and risk exposure involved
- Understanding various techniques of risk inspection
- Preparing proper risk inspection reports
- Appreciating the role of risk management in emerging risks

**Participant's Profile:-**

The program is designed for Risk engineers and other Inspecting officials, Underwriters, Claims Executives of Insurance companies, as well as Brokers, Surveyors and the buyers of insurance.

**Course Coordinator:-**

Mr. Deepak Sangal – 022-26544373      Email: [dsangal@iii.org.in](mailto:dsangal@iii.org.in)
